

## My My My I'm In Love

It started out one summer night  
I dropped you off at your front door  
And my feet were light  
Kinda weird but kinda nice  
I stumbled half way up the street  
My fingers snappin' to a beat  
As I laughed out loud  
What is this all about

And I began to wonder was there any correlation  
Between seeing you and getting these sensations

Sho' nuff the next time I saw you I felt this way again  
I said my my my I'm in love

The neighbors all just smile at me they know just how I'm feelin'  
My heads in the clouds you got my senses reelin'

I been spendin' most my time  
Just singin' songs and talkin' rhyme  
I said my my my I'm in love  
I said my my my I'm in love  
I said my my my I'm in love
