

Richard Nixon, Where Are You Now?

I'm gonna write a letter and I better write it fast
Then I'll send it to a friend from out of the past
And tell him of the trouble that we're goin' through
He's been there before he'll know what to do

Richard Nixon where are you now
Richard Nixon can you show them how

The man was betrayed by people that he trusted
He lied and he cheated and then he almost got busted
But when I look at him now and I see that he's spent
I can only think my God there goes a man who knew what he meant

Richard Nixon where are you now
Richard Nixon can you show them how

They're holding our people across the sea
Now they're talkin' of a draft pretty soon it'll be me
The mountains are exploding dropping ash on us all
There's only one man left to call

Richard Nixon where are you now
Richard Nixon can you show them how
With your influential friends and your military know-how
Richard Nixon where are you now
Richard Nixon where are you now
Richard Nixon can you show them how
Richard Nixon
