

Smashing My Hard Drive

I forgot my password
Or is it my username
I got hacked today although my virus protection
Was completely up-to-date
I'm addicted to texting
My thumbs start to twitch at that sound
Do I really need to know
What someone had for lunch downtown?

I'm smashing my hard drive
Ditching my smart phone
Deactivating Twitter unfriending my Facebook friends
I don't even know
I'm smashing my hard drive
'Cuz my digital world has to end
If you're looking for me
You can find me with my analog friends

I won't take a vacation
If they don't offer wifi there
It freaks me out if I'm not connected
It's like breathing my air
I need more likes
They're more than just numbers
The longer I stay online
Is more and more of a bummer

Chorus

When my isp is down
I don't know what to do
I could get dressed get out get some exercise
For an hour or two
I ain't anti-social
But some things don't need to be shared
I've wasted my time on so many boring posts
Why do I even care?

Chorus
