

Handle With Care

You've got my heart but somehow I see
That look in your eyes just isn't for me
I speak of love and say two's company
But when you speak of love you're not thinking of me

You're thinking of someone
Someone who doesn't care
And my heart keeps crying
Handle with care
You swear that you love me
And yet you won't play fair
See how my heart's labeled
Handle with care

When I came into your life dear
You swore there was no one else
Now I know when he is near dear
I'll get pushed back on the shelf

Though my heart is broke when you call I'll be there
Please answer my heart's plea and handle with care
Please handle with care
Please handle with care
