

## A Rainbow – That's You

A rainbow – that's you a beautiful view  
You bring the calm after the storm  
A rainbow – that's you

The same every time we fuss and we fight  
Then your heavenly gift heals the rift  
A rainbow – that's you

When the winds and rains will rage  
Well they're only setting the stage  
To unfold your colors  
A rainbow – that's you

When the winds and rains will rage  
Well they're only setting the stage  
To unfold your colors  
A rainbow – that's you

With your pot of gold and treasures untold  
Your end-to-end smile goes on for miles  
A rainbow – that's you  
You part the clouds the sun comes out  
A rainbow – that's you  
You bring the calm after the storm  
A rainbow – that's you  
A rainbow – that's you  
A rainbow – that's you that's you  
A rainbow  
A rainbow – that's you  
You're a beautiful view  
A rainbow – that's you
